

25. Identify Capital Words

```
#include <stdio.h>
```

```
#include <ctype.h>
```

```
int main()
```

```
{
```

```
    char str[200];
```

```
    char word[50];
```

```
    int i = 0, j;
```

```
    printf("Enter a sentence: ");
```

```
    fgets(str, sizeof(str), stdin);
```

```
    printf("\nCapital Words:\n");
```

```
    while (str[i] != '\0')
```

```
    {
```

```
        if (isalpha(str[i]))
```

```
        {
```

```
            j = 0;
```

```
            while (isalpha(str[i]))
```

```
            {
```

```
                word[j++] = str[i++];
```

```
            }
```

```
            word[j] = '\0';
```

```
        if (isupper(word[0]))
            printf("%s\n", word);
    }
    else
    {
        i++;
    }
}

return 0;
}
```

OUTPUT

```
Enter a sentence: Hello World this is C Programming

Capital Words:
Hello
World
C
Programming

-----
